

Bhuj School December 2008

A new practice has begun in our school. We have planned to take the 5th standard children out weekly once during one session of Wednesday. This outing would enable the children in communication skills, refresh their minds, act as a source of information exchange, also as a practical lesson session.

The first trip was to a tea shop about half a kilometre away from the school. We all had tea and biscuits and a lot of fellowship. Lessons on road safety, agriculture & many other small talk was part of the fellowship.

Some photos:

Road safety lessons

Lessons on Agriculture

At the field

The way milk is cooled

Tea time

The Gang

In front of the Tea shop

Exciting times

On the way
